- **Marketing**

- Search interest points
- Source art and metadata
- Create ad messaging
- Localize ads
- Deliver ads
- Correlate results

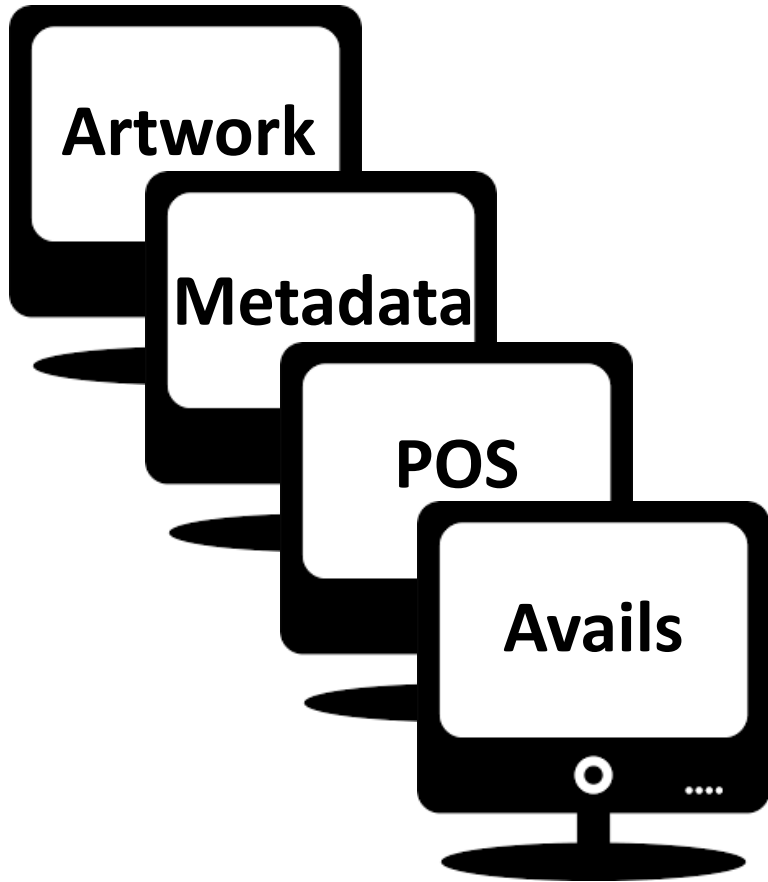

Resources

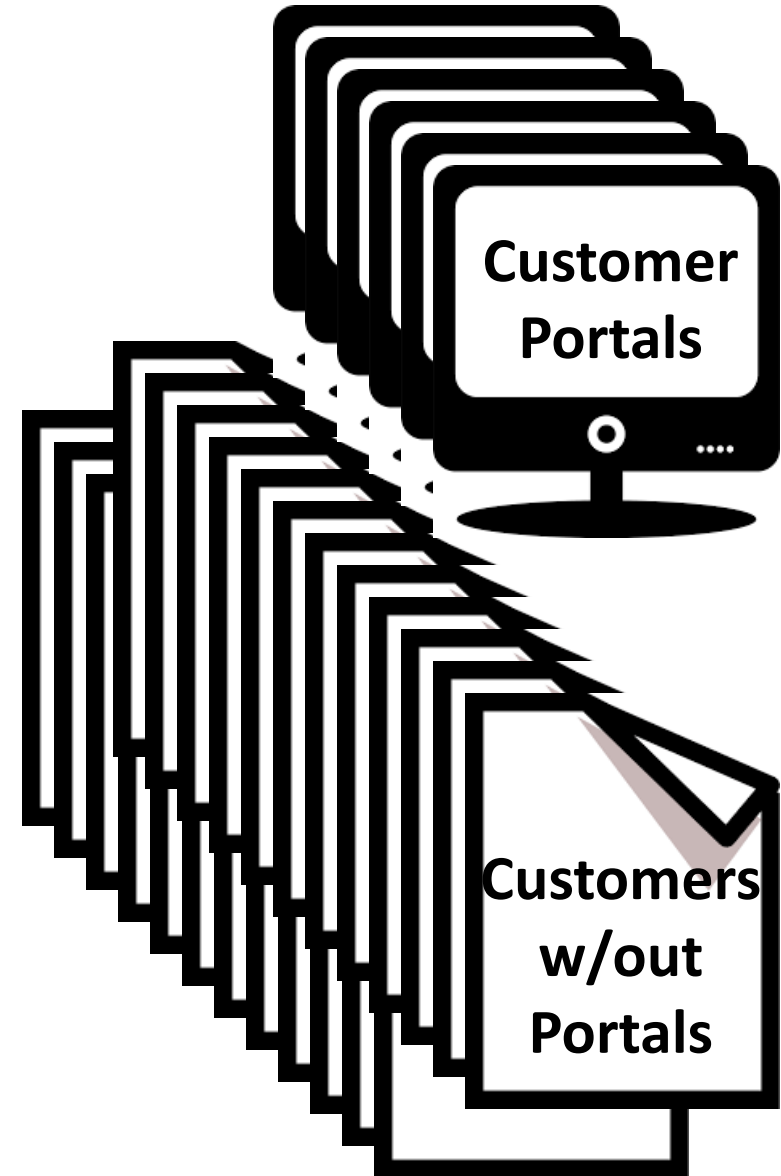

Availabilities

Traditional Storefront Management

Import, Export, Copy, Paste, Pivot, Sort, vLookup, Input, Email, Etc.

The Storefront Management Problem

VISIBILITY of global availabilities does not exist

Ensuring **ACCURACY** of availabilities is extremely difficult

CONNECTING availabilities to interested consumers is manual and tedious

EXECUTION on retailers and social media at scale is impossible

EFFICIENCY is low and **REVENUE** opportunities are left on the table
